EXPERIENCE

Software Engineering Fellow | Springboard | Remote *September 2023 - Present*

- Completed over 800 hours of hands-on coursework under industry expert mentor oversight. Developed [Cinamate](#) and [Aid Me](#), database-driven websites that integrate external API data. The projects' repositories are available on GitHub.

Software Engineer | Arimex Consulting | Port-au-Prince, Haiti *July 2019 - December 2022*

- Applied expertise in SQL and Python to generate insightful reports and conduct data analysis. Participated in mapping initiatives using ArcGIS while also providing technical support and troubleshooting to maintain operational efficiency.

Technical Support Agent | ECCO Corp | Santiago, Dominican Republic *March 2019 - August 2019*

- Resolved customer inquiries related to device issues and internet connectivity. Used effective communication and problem-solving skills to deliver prompt and satisfactory resolutions.

Technical Project Manager | Expression Computer Services | Port-au-Prince, Haiti *April 2013 - September 2018*

- Led end-to-end technical solutions, from client consultations to network installations and troubleshooting. Ensured smooth operations and client satisfaction through proactive problem-solving and attention to detail.

IT Associate | Electricite D'Haiti (EDH) | Port-au-Prince, Haiti *July 2011 - March 2013*

- Provided comprehensive technical support to employees, addressing issues efficiently and managing client information within the company's billing system. Also responsible for network maintenance and updates to ensure seamless company operations.

Community Mobilizer | OXFAM International | Port-au-Prince, Haiti *January 2010 - March 2011*

- Played a pivotal role in post-disaster relief efforts following the 2010 earthquake in Haiti. Managed the Mausolée camp, conducted community census activities, facilitated donations, and led workshops on hygiene awareness.
